

We produce and sell sustainable products made of plastic. All products are durable and 100% recyclable. Recycled plastics are preferably used in production. Development and production take place entirely in Switzerland and Germany.

Our unique all-weather furniture can be used both outdoors and indoors. Used as garden furniture, they withstand any weather and after a rainstorm or a load of Sahara dust, they can be cleaned easily and without any problems. The black furniture is made from recycled plastic, we only use new material for the trendy colored versions.

We offer the all-weather furniture in several design lines that are both trendy and timeless.

KT Box Cube

Cool stools, benches and tables with the design language of classical modernity. With different sizes and with a pronounced robustness they are excellent for children. The storage variants allow a bottom and side openings, the quick storage of toys and smaller objects.

KT Box Cross

Simple forms that lead to high stability, that is the principle behind our KT Box Cross products.

Simply practical and beautiful. This product family will be significantly expanded in the coming months.

Our **stackable storage boxes** are unique and extremely practical. The smooth surfaces do not tend to collect dust and they are easy to clean. They make it easy to keep things tidy in the storage room, basement or garage. Thanks to the attractive design, nothing stands in the way of using it in the living area.

KT Box Storage

Lightweight stackable storage boxes of various sizes.
It is manufactured using recycled plastic.

KT Box Storage Heavy

The extremely robust plastic box for heavy objects.
The box is so stable that you can also dig it in the ground.
The lid can be screwed to the box.
It is manufactured using recycled plastic.

With our shoe boxes / sneaker boxes you can store your shoes or sneakers in a representative way. The clear pane on the front eliminates the need to search for the right pairs and your exhibits get the right appreciation. The KT Box sneakers can be stacked up to the ceiling without any problems.

KT Box Sneaker Single

The box for a pair of sneakers in transverse view.

KT Box Sneaker Duo

The box for two pairs of sneakers in front view.

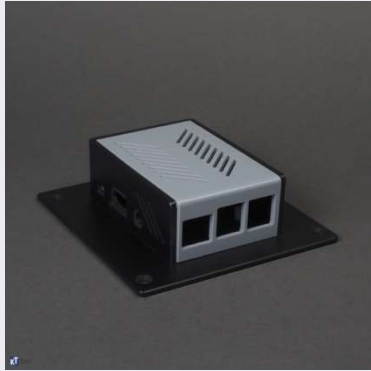

KT Box Sneaker Packed

The original box should be in the KT Sneaker Box,
then this is the correct one.

Antitatsch the ingenious keychain

With the Antitatsch keychain, you can open and unlock doors, operate ATMs and much more without having to touch the questionable surfaces. This can be very pleasant with or without COVID-19 and as a keychain the useful tool is always with you.

Control, our electronics housing with a practical sliding lid

Raspberry Pi housing with VESA 75, VESA 100 mounting plates or with DIN rail mounting.
